

ARIZONA DEPARTMENT OF WATER RESOURCES
PROCEDURES FOR ESTABLISHMENT OF NEW SERVICE AREAS

The following procedures must be followed in order to be considered for a new service area right:

- 1) The Initial Request to Establish a New Service Area Right must be filed on the form provided by the Department. Requirements of the Groundwater Code and management plans are published by the Department and are available from the applicable AMA office. Applicants should carefully review the requirements prior to filing the Initial Request.
- 2) A well impact analysis must be prepared for any proposed “new wells” (as defined in A.R.S. § 45-591). The analysis must demonstrate that the well’s maximum projected pumping volume will not unreasonably impact other surrounding land or water users and that the well meets all other requirements in A.R.S. §§ 45-591 through 604.
- 3) In order to establish a Service Area Right, applicants must first serve water pursuant to one or more of the rights listed below for a 12 month period (Service Area Development Period) and must serve a minimum of 4 or more residential or commercial services at the end of that 12 month period.
- 4) During the Service Area Development Period, water must be withdrawn and used only pursuant to one or more of the following rights: Type 2 Non-Irrigation Grandfathered Right(s); Type 1 Non-Irrigation Grandfathered Right(s); recovery well permit(s); or surface water used pursuant to a statement of claim, a permit to appropriate public water, or a CAP contract. Copies of all ownership or lease agreements should be submitted with the Initial Request To Establish A New Service Area Right application form.
- 5) All water withdrawn must be measured using a measuring device and measuring method approved by the Department. See Arizona Administrative Codes R12-15-901, 903.
- 6) The allotments of the rights or permits during the Service Area Development Period cannot be exceeded. Additional rights or permits must be obtained if it reasonably appears that the rights or permits to withdraw groundwater will be inadequate to serve the needs of the development prior to classification as a service area.
- 7) The Department must be notified in writing within 30 days of the date on which water was first served for service area development.
- 8) After the 12 month service area establishment process, the Final Petition to Establish a Service Area Right form must be submitted to the Director.
- 9) The applicant shall track and submit with the Final Petition to Establish a New Service Area Right, a list of uses to which the water was put and the amount of water delivered for municipal uses for the 12 month Service Area Development Period. Two copies of the current water distribution system map should also be submitted with the petition. Upon approval by the Director, a Service Area Right will be granted by the Department.
- 10) Although the Department of Water Resources may grant a service area right, other state agencies such as the Arizona Corporation Commission and the Department of Environmental Quality may also have regulations and policies that affect Applicants.
- 11) Please direct any questions, comments or requests for further assistance to one of the Department personnel in the Active Management Area (AMA) in which the application is filed as indicated in the following table:

ARIZONA DEPARTMENT OF WATER RESOURCES
INITIAL REQUEST TO ESTABLISH A NEW SERVICE AREA RIGHT

(Please print)

I, _____, representing _____ hereby affirm that
water will be used on a regular basis for service area development commencing
_____ pursuant to the following rights: (Attach additional sheets if necessary)
(Date)

GROUNDWATER SOURCE

___ Type 1 right(s) #58- _____
___ Type 2 right(s) #58- _____
___ Recovery Well Permit(s) #74- _____

Water will be withdrawn from the following well(s): (Attach additional sheets if necessary)

55- _____ 55- _____ 55- _____ 55- _____
55- _____ 55- _____ 55- _____ 55- _____

SURFACE WATER SOURCE

___ CAP Subcontract _____
___ Surface Water Right/Permit/Claim # _____

Water will be diverted from the following location(s): (Attach additional sheets if necessary)

___ 1/4 ___ 1/4 ___ 1/4 ___ Sec. ___ Township ___ Range
___ 1/4 ___ 1/4 ___ 1/4 ___ Sec. ___ Township ___ Range

I certify that all water used by _____ will be used for purposes related to
service area development. Further, I certify that groundwater code and management plan requirements
for service areas, if applicable to this system, have been read and understood, and will be met as described
on the attached plan.

*(Please attach a plan that demonstrates the applicant's ability to meet all groundwater code and
management plan requirements for a service area.)*

Authorized Signature: _____ Title: _____ Phone: _____

Address: _____

Direct any questions, comments or requests for further assistance to one the Department personnel in the Active
Management Area (AMA) in which the application is filed as indicated in the table on the reverse side.

ARIZONA DEPARTMENT OF WATER RESOURCES
FINAL PETITION TO ESTABLISH A NEW SERVICE AREA RIGHT
(to be submitted after the 12 month service area establishment period)

(Please print)

I, _____, representing _____ hereby
affirm that groundwater was withdrawn for a period of 12 months commencing
_____, pursuant to:

GROUNDWATER SOURCE

___ Type 1 right(s) #58- _____, in the amount of _____ acre-feet.
___ Type 2 right(s) #58- _____, in the amount of _____ acre-feet.
___ Recovery Well Permit(s) #74- _____, in the amount of _____ acre-feet.

SURFACE WATER SOURCE

___ CAP Subcontract _____, in the amount of _____ acre-feet.
___ Surface Water Right/Claim/Permit # _____, in the amount of _____ acre-feet.

I certify that all water used by _____ during the aforementioned period was used with
the intent to develop a service area.

Authorized Signature:

Title: _____ Phone: _____

Owner Name: _____ Phone: _____

Address: _____

Please attach a list of the volume of water withdrawn from each well, and/or volume of surface water used. If other sources of water were utilized, please attach a listing of each source and the volume used from each source. Also, please submit evidence that four or more residential or commercial uses were served during the 12 month development period, and two copies of the current water distribution system map. The service area distribution maps should include details as described on the reverse side.

Service area maps: According to A.R.S. 45-498 of the Arizona Groundwater Code, each city, town, private water company and irrigation district within an Active Management Area is required to maintain an accurate and current map delineating its service area and water distribution system. Please submit two copies of an updated map of your water service area to the applicable AMA office. Maps must be drawn to a scale of 1:31680 (2 inches to the mile) or larger and must contain all of the elements listed below:

1. The principal features of the operating distribution system including wells, water treatment plants, pumping stations, reservoirs and storage tanks, canals and water mains of a diameter greater than or equal to four (4) inches.
2. The diameter and linear mileage of the mains and the capacities of other features of the operating distribution system.
3. The location and names of major streets that carry traffic through and around the service area.
4. Notations of the legal description of the area covered by the service area map. Such notations should include on the borders of the map the township(s) and range(s) covered by the map. Within the body of the map indicate the section(s) covered by the map.

Each map must be dated and signed by an authorized representative of the Applicant. A duplicate copy of the service area maps submitted to the Department should be kept on file at the Applicant's office.
